This impressive collection of readings illustrates that the history of the world is as much about the relationships *among* societies as it is about transformations and continuities *within* societies.

Â

Exchanges:Â A Global History Reader is designed as an introduction to the *discipline* of world history. Unlike other source collections, *Exchanges* helps students look beyond strictly delineated regionalism and chronological structures to understand history as a product of ongoing debate. Structured around a series of interconnected themes and debates, and pairing both primary and secondary sources, *Exchanges* challenges

both students and teachers to rethink history.
