Complete Curriculum Individuals Spectrum Developmental Book Preview

Covering intermediate skills such as comprehension of abstract language, academic skills, advanced social and play skills, and emotional and behavioral regulation, this comprehensive ABA curriculum has been developed for working with children with autism spectrum disorders (ASDs) with a developmental age of approximately 2-4 years. Evidence-based, the resource guides professionals step-by-step through using ABA task analyses to teach over 150 different skills. Uniquely to this program,

the task analyses can be individualized to meet the needs and interests of the child, and instructions are given on how to do this. An accompanying CD contains the teaching materials needed to implement the program, including over 1000 printable flash cards, as well handy printable copies of the task analyses, record forms and checklists. The authors also provide guidance on creating an effective environment for applying ABA, as well as a wealth of practical teaching strategies for ensuring therapy success. This is an unparalleled resource for professionals working with children with ASDs who are looking for a robust and ready-to-implement ABA curriculum. It will be a valuable tool for behaviour analysts, teachers, psychologists, occupational therapists and students in these fields, as well as to parents working with professionals to implement an ABA program.
