## **Cascading Style Sheets Designing Edition Book Preview**

Since 1996, CSS (Cascading Style Sheets) has been the standard language for describing the layout of Web pages. This classic, fully four-color book explains how to use the latest release of the CSS language, with clear and practical examples for each CSS language element. And more than just the "how," the book also explains the "why" behind the design of each CSS element, ensuring that readers have the understanding they need to create their own CSS libraries. The foreward is written by Jeffrey Zeldman, author of Designing with WebStandards and Taking Your Talent to the Web.
