The Cost Globalization Dangers People Book Preview

The issues arising from rapid global integration have generally been treated in isolation by most academic works. This volume examines the many pitfalls of globalization from the perspective of impoverished and indigenous peoples, including the widening wealth gap, the struggle for restoration of dispossessed lands and cultural rights, global warming and ecological annihilation, and the experiences of women in underdeveloped regions. The United States' growing prison industrial complex is discussed. The author concludes with a call for reassessing current ways of living and proposes recreating cultures of conservation and sustainable economies.
