## **The Dragon Bard Heather Shropshire Book Preview**

The Dragon Bard is the first in a two book series about a young bard named Dalen. In the beginning, Dalen is the typical young man, looking to become a master bard to gain fame and fortune. He inherits a set of "dragon treaties" from his former master, and decides to achieve his goals by telling the histories of the dragons from their point of view. At first the quest seems to be fairly straightforward, although he quickly finds that nearly all of his preconceived ideas about dragons are wrong. Looking at things from the point of view of an ancient intelligent race causes Dalen to reassess his goals and values. As his quest progresses, he learns that the "treaties" are much more than they seem. Guided by forces far beyond his control, he

becomes enmeshed in a centuries-old conflict between the forces of good and an ancient spreading evil, and learns that the things he had thought were important pale alongside the truly important values of honor, humility, faith, courage, and self-sacrifice.
