## Math Jokes 4 Mathy Folks Book Preview

Who says math can't be funny? In *Math Jokes 4 Mathy Folks*, Patrick Vennebush dispels the myth of the humorless mathematician. His quick wit comes through in this incredible compilation of jokes and stories. Intended for all math types, *Math Jokes 4 Mathy Folks* provides a comprehensive collection of math humor, containing over 400 jokes. It's a book that all teachers from elementary school through college should have in their library. But the humor isn't just for the classroom-it also appeals to engineers, statisticians, and other math professionals searching for some good, clean, numerical fun. From basic facts (Why is 6 afraid of 7?) to trigonometry (Mathematical puns are the first sine of dementia) and algebra (Graphing rational functions is a pain in the asymptote), no topic is safe. As Professor Jim Rubillo notes, *Math Jokes 4 Math Folks* is an absolute gem

for anyone dedicated to seeing mathematical ideas through puns, double meanings, and blatant bad jokes. Such perspectives help to see concepts and ideas in different and creative ways.
