10. If you are not satisfied with their service, you can cancel your subscription anytime, **unsubscribe without additional charges**.

Discovering Architecture Worlds Buildings Designed Book Preview

This exceptionally produced art book with die-cut windows, overlays, and blueprints identifies, decodes, and explains the world's architectural masterpieces. Based on the successful format of *Discovering the Great Masters*, this is an accessible reference for anyone interested in great spaces and spectacular buildings and for anyone keen to know more about architecture. Each of the architectural works features clever overlays and die-cut windows that allow the reader to identify and focus on specific design elements. Each featured window includes a thoughtful caption

explaining the significance of the highlighted area: building materials, historical context, and insights into the planning and architectural influences. Including such works as the Tower of London, Notre-Dame de Paris, and the Taj Mahal in India, the book is organized chronologically and presents buildings from all genres, covering more than two millennia of architectural history. In addition to the clever die-cut captions, each building is featured in an essay filled with essential information on the construction, as well as the social, political, cultural, and geographical considerations of the architect. Stunning photographs allow the reader to appreciate the technical feats and aesthetic brilliance of both the buildings and architects past and present.
