Road Through Kurdistan Narrative Engineer Book Preview

In 1928, Archibald Hamilton traveled to Iraqi Kurdistan, having been commissioned to build a road that would stretch from Northern Iraq, through the mountains and gorges of Kurdistan and on to the Iranian border. Now called the Hamilton Road, this was, even by today's standards, a considerable feat of engineering and remains one of the most strategically important roads in the region. In this colorful and engaging account, Hamilton describes the four years he spent overcoming immense obstacles--disease, ferocious brigands, warring tribes and bureaucratic officials--to carve a path through some of the most beautiful but inhospitable landscape in the world. *Road Through Kurdistan* is a classic of travel writing and an

invaluable portrayal of the Iraqi Kurds themselves, and of the Kurdish regions of Northern Iraq.
