5. Playing online games on your PC, Mac, Tablet or Smartphone.
6. Access playster content on up to six different devices.
7. Access the service via a web browser or through the smartphone App, which is available for IOS and Android.
8. If you are using the latest version of the Playster app for iOS or Android, you can enjoy content without the need for an internet connection. The Playster app lets you download and save all of your favorite music, books, audiobooks and movies to your mobile device so you can enjoy them anytime, anywhere.
9. If you are satisfied with the service, you can continue your subscription with only \$1.95 / month for all services (books, audiobooks, movies, music and games) or \$0.5 / month for single service.
10. If you are not satisfied with their service, you can cancel your subscription anytime, **unsubscribe without additional charges**.

The Vatican Heresy Building Hermetic Book Preview

Reveals how the largest Sun Temple in the world, built according to Hermetic principles, is located at one of Christianity's holiest sites: the Vatican

• Shows how famous Renaissance philosophers and scientists called for a Hermetic reformation of Christianity by building a magical Temple of the Sun in Rome

• Explains how the Vatican architect Bernini designed St. Peter's Square to reflect heliocentric and Hermetic principles

â€œ Reveals how the design was masterminded by Bernini, Jesuit scholars, the mystical Queen Christine of Sweden, and several popes

In 16th century Italy, in the midst of the Renaissance, two powerful movements took hold. The first, the Hermetic Movement, was inspired by an ancient set of books housed in the library of Cosimo deâ€™ Medici and written by the Egyptian sage Hermes Trismegistus. The movement expounded the return of the â€œtrue religion of the worldâ€• based on a form of natural magic that could draw down the powers of the heavens and incorporate them into statues and physical structures. The other movement, the Heliocentric Movement launched by Copernicus, was a direct challenge to the Vaticanâ€™s biblical interpretation of a geocentric world system. Declared a heresy by the Pope, those who promoted it risked the full force of the Inquisition.

Exploring the meeting point of these two movements, authors Robert Bauval and Chiara Hohenzollern reveal how the most outspoken and famous philosophers, alchemists, and scientists of the Renaissance, such as Giordano Bruno and Marsilio Ficino, called for a Hermetic reformation of the Christian religion by building a magical utopic city, an architectural version of the heliocentric system. Using contemporary documents and the latest cutting-edge theses, the authors show that this Temple of the Sun was built in Rome, directly in front of the Vaticanâ€™s Basilica of St. Peter. They explain how the Vatican architect Bernini designed St. Peterâ€™s Square to reflect the esoteric principles of the Hermetica and how the square is a detailed representation of the heliocentric system.

Revealing the magical architectural plan masterminded by the Renaissanceâ€™s greatest minds, including Bernini, Jesuit scholars, Queen Christine of Sweden, and several popes, the authors expose the ultimate heresy of all time blessed by the Vatican itself.
