The Redbook American Casebook English Book Preview

Since the first edition was published in 2002, The Redbook has established itself as the most authoritative, comprehensive, and easily usable manual of legal style. Written by Bryan A. Garner, with contributions from all six lawyers at LawProse Inc., The Redbook covers everything that mere citation manuals don't and can't: punctuation, capitalization, grammar, prose style, and clarity in general. The copious examples of model documents are unlike any others: gleaned from thousands of potential candidates, they are the best available exemplars for business letters, motions, briefs, contracts, statutes, and even judicial opinions. For this wholly revised third edition, Garner and his team have also added five

new chapters on e-mails, statutes, research papers, law-review articles, and book reviews. The Redbook an eminently usable reference book. Written in the style of a restatement, the black-letter rules are followed by exhaustive comments and illustrations.
