## **Build Hemp House Paul Benhaim Book Preview**

If you want a breathable, natural and sustainable environmentally friendly home - then this is the book for you. This book shows you exactly how, and why and how you should build a house of hemp. Building with hemp is affordable, sustainable and environmentally friendly in all ways. Hemp walls waterproof, fireproof, rodent proof and maybe council approved. Because the building process is so simple by (optionally) growing your own hemp you may build on the same piece of land. No heavy machinery is required to process hemp. Building with hemp is not new. There is a 300 year old house in Japan still standing and looking great! The method described in this book has not been shared before and is unique in the fact

that the Author has spent over 10 years developing and testing this technology with universities and engineers to ensure this is a method is a viable and affordable alternative to standard and sometimes less than healthy project homes. As well as a laymans discussion about the principles and practicalities of building with hemp, the book contains a full construction manual suitable for use as a builders manual.
